Finished products

EUROQUARZ offers different finished products and/or toll-manufacturing of these products. Our trademark SILIMIX[®] is produced as both silica sand/quartz gravel mixture and silica sand/ silica flour mixture in accordance to specific customer requests. Furthermore different bulk materials such as limestone flours, corundum, bauxite or the like can be added too. For mortar mixtures EUROQUARZ keeps a multiplicity of different cements and additives ready and manufactures ready-mixed mortar in different packing units.
